# WILHELM HELMSTEDT

**WHIPPMAN'S GALLERY**

1st Floor, Downing Mansions

114 Eloff Street, Johannesburg

The work of Wilhelm Helmstedt needs no introduction to the Johannesburg public; he has exhibited in this Gallery on several occasions during the past seven years, and his work hangs in most of South Africa's leading private collections.

For the past six months the artist has been touring this country recording, in paint, his impressions of our landscape. His individual approach to his subject, coupled with his superb craftsmanship, make this a memorable exhibition, fully in accord with the artist's considerable reputation overseas.

Wilhelm Helmstedt is still in South Africa and will be present at the opening of his exhibition.
